PREVENT AND CONCEAL
DEPIGMENTATION

VITIX
Regulating gel

Helps to regulate depigmentation.
Restores the physiological free radical balance
thanks to a patented plant extract.

ACM patent (Plant extract).

Directions for use

1 to 2 times per day.
Face - Body (external use). Refer to instructions.
For 4 to 6 months.
Alone or in combination with phototherapy.

- + Quickly absorbed into the skin.
- + Non-greasy.
- + Easy to apply.

CLINICAL STUDY

With Vitix Gel + UVB phototherapy:
2 times more patients experienced significant repigmentation*
compared to UVB phototherapy alone.(1)
50% of patients** achieved faster repigmentation compared to
UVB phototherapy alone.(1)

20 ml / 50 ml

PREVENT AND CONCEAL
DEPIGMENTATION

VITIX
Food supplement

Helps to protect cells against oxidative stress.
Strengthens the antioxidant defences.

Patented plant-based extract, Copper, Zinc, Selenium, Vitamins: C, E,
B9, B12.

Directions for use

1 tablet per day.
Take with a meal for 3 to 6 months.
Alone or in combination with phototherapy.

- + Combination of primary and secondary antioxidants.
- + Lactose free, gluten free.
- + Vegan.

Box of 30 tablets

VITICOLOR
Skin camouflage gel

Colours depigmented areas.

Colouring agents, pigmenting agents (DHA, erythrulose).

Directions for use

1 to 2 times per day.
Face - Body.
1 to 2 times per week.

- + Tinted texture and applicator brush for precise application
on depigmented areas.
- + Long-lasting attractive colouring.
- + Formulated without fragrance.

RESULT

3 to 5 days of attractive colouring. (2)

50 ml

*Greater than 50%. **Among patients who responded to treatment. (1) Study on the efficacy of VITIX Regulating Gel in reducing lesion plaque through UV light planimetric analysis in 17 patients over 6 months – A. KEMIS, J.P.ORTONNE.
(2) Results observed thanks to pigmenting agents (DHA, Erythrulose).

AZÉANE
skin irregularities

CORRECT
PIGMENTATION SPOTS, DULL COMPLEXION, IMPERFECTIONS, REDNESS

AZÉANE
15% Azelaic acid cream

Tones down brown spots, restores skin radiance and evens out complexion.
Reduces imperfections and diminishes residual marks.
Reduces redness.

Azelaic acid 15%, Vitamin PP, moisturising complex.

Directions for use

Morning and/or evening.
Face – Hands – Décolleté.
For 4 to 8 weeks.
Can be used alone, in combination with other products or after dermatological treatments.**

- + Ages 10 and up.
- + Optimal galenic formula for better treatment compliance.
- + Non-sticky, quickly absorbed, soft finish.
- + Good skin tolerance.

 IF PREGNANT OR BREASTFEEDING, CONSULT A DOCTOR.

CLINICAL STUDY

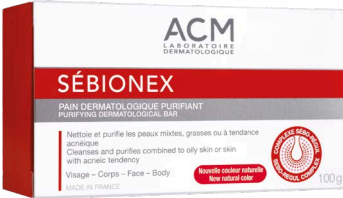

95% Redness is instantly reduced. (2)
94% Brown spots are less visible from 2 weeks.(1)
86% Residual marks are reduced.(2)

30 ml
